25X1

E. Estimated Chinese can support eight armies (240,000 men) in Indochina (G-2, 3 Apr 54) and could overrun Tonkin with a force of 50-75,000 men, together with Viet Minh troops, against French resistance alone.

II. Tho these units being re-equipped with modern material, there no indication priority over other areas.

A. Present coverage inadequate determine whether supply dumps for operational support of large Chinese ground force been accumulated opposite Indochina.

V. What kind air facilities do Chinese have near border?

- 
- Poseh  
Namun  
Swichi*
- A. At least three airfields are within 100 miles of Indochina border, all with short or unimproved runways, now in use, but only by civilian transports.
- B. Any or all of these possibly could be used for limited periods both by jets and by conventional fighters and conventional light bombers.
- C. ~~Within MIG-15 combat radius (315 miles) of border there several additional large airfields, present condition of which unknown.~~

VI. Within past six months Chinese are building major air base at Suichi on Leichow peninsula (just north Hainan Island).

A. This field's runway (planned for 10,000 feet and 6,000 feet complete), now capable handling any aircraft in use by Chinese with possible exception of TU-4 medium bombers.

B. There been no indication which CCAF units will move Suichi, hence no information on its primary use.

VII. Though many reports state Viet Minh pilots training with Chinese, this not substantiated.

VIII. None of airfields in Viet Minh territory operable.

A. Without major effort at rehabilitation, carried out in face of French bombing, these fields cannot be put condition for use by Chinese.

IX.

25X1

X. Chinese Navy not capable defeating French naval forces Tonkin Gulf.

A. Long as French naval, air forces operating Tonkin Gulf, Chinese attempt invade Indochina by sea would be costly.
